PROFESSIONAL OVERVIEW

I am Rupesh, an enthusiastic React UI developer with a strong passion for building interactive, user- friendly, and high-performance web applications. I am currently deepening my expertise in frontend development focusing on   creating seamless and responsive user interfaces.

I am seeking an opportunity where I can apply and expand my technical skills, contribute to real-world projects, and grow as a developer within a dynamic and innovative team.

WORK EXPERIENCE

React JS Developer

Singnimius Tech. Indore (remote) | Jan 2025- Present

- Implement **responsive** and **accessible** UI designs using **React 18 and Tailwind/Bootstrap**.
- Developed a fully functional job portal web application enabling job seekers to search and apply for jobs, and recruiters to post job listings.
- Implemented user authentication(login/signup) using firebase/Auth or JWT for secure access and role-based dashboards.
- Debug and troubleshoot UI issues and bugs.
- Participate in **code reviews** and improve coding best practices.
- Optimize components for **performance** and **reusability.**

UI full stack Course

NareshIT, Hyderabad |2022- 2023

- Gain hands-on experience in **real-world UI development**.
- Improve skills in **React component development and state management**.
- Learn best practices for **UI/UX design and performance optimization**.
- Understand how to collaborate in a **professional development environment**.
- Strengthen **problem-solving and debugging** abilities.

SDITS khandwa

Smart india hackathon |2/2022- 3/2022

- Develop interactive travel booking interfaces using React.js.
- Implement features like destination search, itinerary planner, and booking management.
- Optimize UI for mobile-friendly and responsive design.
- Integrate **Google Maps API** or other mapping services for location-based features.
- Fetch and display travel data from **APIs (e.g., weather, flights, hotels, places of interest)**.
